Message:  
I'm writing in support of BNSF's proposed Logistics Park Phoenix (LPP) project, because it's an important investment in our Arizona community and economy.

LPP will create over 76,000 jobs, add nearly \$4 billion into our economy, and expand rail capacity to help businesses across the state thrive. On top of that, it will generate hundreds of millions of dollars in tax revenue every year to support our region's schools, community colleges, flood control, and other critical services.

Having rail move our goods as opposed to trucks is also better for the environment. LPP is a smart, sustainable way to keep up with growing demand, improve our infrastructure, and get more trucks off the road, which means less traffic and cleaner air.

I encourage you to support BNSF's application for this project to help Arizona continue to grow and thrive.
